A SERIOUS CHARGE

Trusted Attache of a Cincinnati Packing House Reported Short.

CAUSED A SENSATION

Never Has a Report of a Similar Character Created Such a Turmoil in Cincinnati.

Theodore Braemer Has Turned Over His Property Pending An Investigation.

Cincinnati, Jan. 23.—Sensational reports have been published here of an alleged shortage in the books of Theodore Braemer, who resigned last Thursday as secretary and treasurer of the J. & F. Schroth Packing company of this city. The story as first published estimated a shortage of from \$160,000 to \$400,000, extending over a period of 20 years, and claimed that Mr. Braemer had turned over all his property and chattels in trust pending an examination of the books by experts. Braemer denies that there was any defalcation, but admitted that he has turned \$72,000 in personal property over to Harlan Cleveland, his attorney, and Jos. W. O'Hara, attorney for the J. & F. Schroth company. While Braemer talked freely about the case, the Schroths refused to say anything, and the attorneys were also reticent.

Braemer is 45 years of age and has been with the Schroths 27 years, most of the time receiving \$25 per week as bookkeeper and in recent years twice that much as secretary and treasurer. The firm did a business of about \$1,000,000 a year, which was collected by Braemer.

When John Schroth died over a year ago, Lieutenant Governor Carl Nipper became the attorney of his heirs, who instituted an investigation of the company, which finally culminated in a meeting of all interested parties last Sunday, at which Braemer resigned and from which yesterday's sensational reports emanated. Lieutenant Governor Nipper, attorney for the heirs of John Schroth, is engaged with the legislature at Columbus, while Harlan Cleveland, attorney for Braemer and John W. O'Hara, attorney for the company, also trustees, are engaged with the experts in examining the books. The accountants insist that they cannot complete their work for two or three weeks and counsel say that no reliable statement can be made until that time. The books were transferred from the packing house to the Hammond building in this city yesterday for the convenience of the expert accountants and the attorneys engaged in the investigation. No reports of similar character ever created such a sensation in this city, as Mr. Braemer always has been regarded as a man of the highest business and social standing. He owns one of the finest residences in the city and is furnished with all that art could supply. In all of the sensational reports that have been published no reference is made to him as a fast man or any bad habits, such as are usually coupled with such sensations. The attorneys and other interested parties will give no assurance that the report of the experts on the examination of the books will be made public when completed, as they state that every possible difference has already been adjusted satisfactorily by the property that Braemer has turned over in trust. All the interested parties state that they expected after the meeting last Sunday at which Braemer resigned, that all differences would be settled without the matter ever becoming public.

Neely Got Rich Quick
Havana, Jan. 23.—The testimony of the postoffice inspectors introduced by the government yesterday at the trials of the charges growing out of the Cuban postal frauds, was to the effect that C. F. W. Neely, ex-chief of the Cuban postal bureau of finance, came to Havana practically bankrupt in December, 1899; that between that time and January, 1900, he made deposits in the bank at Muncie, Ind., amounting to \$43,700.

Split In Bowlers' Ranks.
Buffalo, Jan. 23.—The split in the American bowling congress which had been threatening since the body convened here in annual session, came yesterday afternoon, when the Eastern delegates left the hall in a body and declined to take any part in the consideration of matters before the convention. The question of proxies is the rock upon which the convention split.

Big Canal Costs Money.
Washington, Jan. 23.—Secretary Root has sent to congress a special report made by Major J. H. Willard, engineer at Chicago, stating that the expense of constructing the Illinois and Mississippi canal will be about \$2,000,000 above the original estimate of \$5,025,000. The increase is due to the cost of rights of way and to improved plans of construction.

Missourians Use Guns.
Keytesville, Mo., Jan. 23.—Wiley Ellis, aged 50, was shot and killed, and James Nichols, aged 20, was shot four times and dangerously wounded near here in a fight between the two men.

German Chancellor Says They Are Filled With An Earnest Desire to Maintain Good Will.

Prolonged Cheers Greet This Formal Announcement in the Reichstag.

Berlin, Jan. 23.—During the debate on the estimates of the chancellor's department in the reichstag yesterday, the imperial chancellor, Count Von Buelow, referred to the pleasant relations between Germany and the United States, and to the approaching visit of Prince Henry of Prussia. The chancellor found his opportunity in the remarks of Dr. Barth, leader of the Freisinnige party, who, in discussing the budget said:

"I want to touch upon the political relations between Germany and the United States, which are traditionally friendly in character. One hindrance to the promotion of this friendship is the protectionism now prevailing in Germany. It is pleasant, on the other hand, to see that the projected visit of a German prince to the United States has disclosed the existence of a large fund of good will and cordiality among the American people for Germany. We recognize in the Union not merely a great and economically effective community, but we know that the achievements of the United States in other fields, such as civilization and culture, are very important. The cultivation of the friendship of the two countries is a thing to be grateful for."

Replying to Dr. Barth Count Von Buelow said: "I express my thanks to Dr. Barth for the words and manner in which he has spoken of our relations with the United States. I still must ask him not to over-estimate the difficulties from the way in which we formulate our tariff policy."

"I can only repeat what I said three years ago in the reichstag, and I believe the views I then set forth in detail will today meet with the concurrence of the house—namely, that we are filled with an earnest desire to maintain, on the bases of perfect reciprocity and mutual appreciation, the traditional good relations which have always existed between ourselves and the United States. The voyage of Prince Henry to America is an expression of these good relations, and I am convinced his reception will be in accord with the friendly feelings the two great nations have for one another."

The chancellor's statement was met with prolonged cheers from all parts of the house.

Russia's Friendly Attitude.
St. Petersburg, Jan. 23.—The following statement from the Russian foreign office regarding the announcement made in the British house of commons Monday concerning negotiations between the powers before and after the outbreak of the Spanish-American war, and the assertions made by a British foreign office official on the same subject has been given out: "Russia has always been and now is extremely desirous of maintaining amicable relations with the United States. Russia never had any intention of participating in any collective steps in the Spanish-American dispute which did not directly concern her. Nor did Russia receive any proposition having such action in view. Indeed, we received no information regarding Austria's alleged initiative or about an attempt on the part of any of the powers to interfere in the interest of Russia."

CHICAGO AND KRUGER
Boer Sympathizers Will Ask Oom Paul to Visit the Windy City.

Chicago, Jan. 23.—At a mass meeting of Boer sympathizers held here last night it was resolved to send President Kruger an invitation signed by 500,000 people, to visit Chicago June 26, the date of the coronation of Edward VII. The meeting was called originally for the purpose of taking action to secure the aid of President Roosevelt to secure clemency for Commandant Scheepers. When it was learned that Scheepers had been executed it was decided to invite Mr. Kruger and have a pro-Boer demonstration. The invitation to President Kruger will be forwarded to him as soon as the signatures are returned.

It was discovered yesterday that through a cable error an Associated Press dispatch of last week announced that the death sentence upon Commandant Scheepers of the Boer army had been confirmed by General Kitchen, and that he would be executed next Saturday. The fact is that he was executed on last Saturday, January 18.

Unfounded Rumors
Washington, Jan. 23.—Attorney General Knox has made a report to the president exonerating Judge Webster Street, chief justice of the supreme court of Arizona, of charges of bribery and extravagance in office. The attorney general says that the charges were "raised only upon rumors and unverified insinuations."

STRIKE SETTLED

Six Hundred Car Builders Return to Work at Jeffersonville.

CONCESSIONS GRANTED

An Increase of Pay For That Part Of the Work In Dispute Will Be Given the Men.

Settlement Was Ratified At a Meeting of the Strikers Last Night and All Is Well.

Jeffersonville, Ind., Jan. 23.—The strike of 25 body builders at the American Car and Foundry company's plant which caused 600 men to leave their work, was settled yesterday afternoon at a conference between President Mulcahy of the International Woodworkers of America and officials of the car company. The settlement was ratified last night at a meeting of the strikers. The men will get increased pay on part of the work on which they asked an increase, but the company will not discharge the superintendent to whom the men objected. The company reserves for future consideration the matter of the positions held by men employed to take the places of some of the strikers.

THEY ARE WALKING
Terre Haute People Respond to Boycott On Street Cars.

Terre Haute, Ind., Jan. 23.—The street car strike situation is unchanged. The cars are running regularly, but empty. Relays of spotters have been arranged for, to get the names of persons who ride on the cars. These names are to be reported to the strike committee, and everyone who knows any one of the patrons of the company is to call on him and ask him to refrain from riding on the cars. Where this effort fails a boycott will be placed on persons who persist in patronizing the company.

The fact that people do not ride on the cars gives the leaders in the labor war on the company hope that the boycott plan of campaign may succeed. There is no doubt that a number of the motemen and conductors want to return to work. It is said that should every one of the 84 railway employees return to work, the boycott will be carried on by the Central Labor union, which seems to have been convinced that the company's plans were laid to disrupt organized labor. The Central Labor union leaders say that should the company succeed, like attempts will be made by other employers.

Brazil's Big Meeting.
Brazil, Ind., Jan. 23.—The labor demonstration given here last night on account of the street car strike was one of the greatest turn-outs of organized labor seen here for many years. Eugene Debs could not be present on account of the death of a relative. Among the speakers were Ben Tillett of England, fraternal delegate of the British trades unions, and "Mother" Jones of Chicago, both of whom delivered fiery addresses denouncing corporations and appealing to the strikers to stand firm. C. O. Pratt of Cleveland, O., national vice president of the street railway union, also spoke.

Assaulted the Prosecutor.
Covington, Ind., Jan. 23.—Frank Bingham, deputy prosecuting attorney, while in Kingman yesterday gathering evidence in liquor cases, was attacked by Grant Ratcliff, saloon keeper, and severely injured. There were nine gashes on his head and three on his face, evidently inflicted by a blunt instrument. Mr. Bingham will recover. It is the third criminal case from Kingman this month, there having been two murders.

Old Grudge Revived.
Goshen, Ind., Jan. 23.—Sears Gardner, a local horse buyer of powerful physique, assaulted and severely injured Attorney Henry C. Dodge of Elkhart in the Hascall House saloon yesterday. The trouble grew out of a grudge of 20 years' standing. It required 10 stitches to close the cuts in his face.

Young Bridegroom Killed.
Bedford, Ind., Jan. 23.—Elmer Wicker of this city, brakeman on the Monon railway, was killed near Greencastle in a head-end collision. Mr. Wicker was married in this city one month ago to a Miss Smithers, a beautiful and accomplished young woman of Bedford.

Caught In a Trench.
Marion, Ind., Jan. 23.—James Weir of Columbus, O., while superintending the placing of new machinery at the waterworks plant and inspecting the connections of water mains in a trench was caught by the earth caving in and was crushed to death.

Crushed By Pig Iron.
Richmond, Ind., Jan. 23.—Lawrence Knerim, employed by Gaar, Scott & Co., was caught underneath a falling mass of pig iron and was terribly crushed, death resulting a few hours later.

Killed While Switching.
Terre Haute, Ind., Jan. 23.—John D. Shaffer, Vandavia yard conductor, was struck by a car and killed while switching.

His Design Frustrated.
Anderson, Ind., Jan. 23.—Homer Black, a prominent young farmer, swallowed chloroform with suicidal intent and was barely saved. He refuses to explain his action.

THE Commoner is a year old and Editor Bryan has decided to try it another year. He congratulates himself and his paper over the first year's business.

EX-PRESIDENT CLEVELAND has written a letter stating that his views on the question of reciprocity with Cuba accord with those of President Roosevelt and Secretary Root.

THE fact that each of the thirteen members of the republican state committee was elected by acclamation and that the state chairman was elected without opposition shows a remarkable harmony of the party throughout the state. The democratic gossip about factions has not materialized in the organization.

THE address of Governor Durbin to the township trustees association emphasized the necessity of economy in the management of public business. He wisely urged the trustees to always conduct their offices in a business like manner and in the interest of the taxpayers. No officer comes closer to the people than the township trustee and no officer has a better opportunity to practice judicious economy and thereby save the taxpayers thousands and thousands of dollars than he. The governor commended the reform legislation that has put the affairs of the township on a more rational and business like basis. The trustees should profit by these suggestions made by the governor.

POLITICAL GOSSIP.

Judge Francis E. Baker has tendered his resignation as supreme judge to accept the federal judgeship. The governor will appoint his successor. Among the men mentioned for the vacancy are Judge Wiley and Judge Roby, of the appellate court and Judge Shively, of Wabash.

John C. Chaney, of Sullivan, will be a candidate for congress in the Second district. Mr. Chaney is one of the ablest men in the district and has been prominent in the councils of the republican party for many years.

Jonathan Robertson wants to go to the legislature again and has announced his candidacy. Many of his democratic friends think he will have no opposition. If he does not it will not be because no other democrat in the county has ambition to be a statesman.

Opinion of Gov. Taft.

Governor Taft thinks that by the end of the year the force of American troops in the Philippines can be reduced to 17,000 men, to be stationed in garrisons at convenient points, and that even these will only be needed for a show of authority and in case of emergency. For the rest he thinks the native constabulary will be equal to all demands.

CURE SICK HEADACHE.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmea & Co., Binghamton, N. Y., be sure and mention this paper.

STRIKE AT WASHINGTON.

About 300 B. & O. S. W. Men Refuse to Return to Work.

The threatened strike at the B. & O. S. W. shops at Washington is now a reality. Three crews of section hands and about 250 shop employees failed to report for work Wednesday morning.

All of the strikers are members of the American Federation of Labor. The car shop, paint shop, mill room and round house are badly crippled, the strikers being principally employees of these departments. Members of the A. F. of L. who are employed in other departments of the shops also quit work. The machine shop and blacksmith shop were in operation yesterday as if nothing out of the ordinary had happened.

The strike is the outgrowth of the discharge of thirty union men January 13. All of the men discharged were members of the A. F. of L. and had taken an active part in the strike last September. The order to which they belong claims that their discharge was due principally to this fact, although the company denies the truth of this statement.

Lead Ore in Jennings.

A small pill box, containing a rich sample of Galena or lead sulphide ore was received by State Geologist Blatchley, Wednesday from North Vernon. It was sent to the geologist by a firm in that city that had received the ore from a farmer who found it on his land. Mr. Blatchley wrote the North Vernon people that the ore is the kind from which all lead of commerce is derived and when found in large quantities is very valuable. He requested that a full description of the farm where the ore was found, the size of the deposit and other information that might be of use to his office be sent. He said there has never been a paying vein of the ore found in Indiana. It is the same kind of lead that is mined near Joplin, Mo.—Indianapolis Journal.

Jackson Lodge No. 146, F. & A. M. will hold a special meeting tomorrow night to do work in the third degree.

Mid-Year Examinations.

Examinations are being held this week in all the grades of the city schools. This is the mid-year examination and is of much importance. The result will show the standing of the pupils and test the thoroughness of the work done the first half of the year. There will be a great deal of anxiety among pupils until their papers have been examined and grades reported. Such a test is very helpful, for it is always a good thing for the student to know just where he stands.

monthly periods for it meant a couple of days in bed in awful agony. I finally made up my mind that the good doctors were guessing; and hearing from different friends such good reports of Lydia E. Pinkham's Vegetable Compound, I tried that. I bless the day I did, for it was the dawning of a new life for me. I used five bottles before I was cured, but when they were taken I was a well woman once more. Your Compound is certainly wonderful. Several of my friends have used it since, and nothing but the best do I ever hear from its use."—Yours, MABELLE L. WEATHER SIGNALS.

What They Mean as Sounded by the Blish Whistle.

At 10 o'clock each morning the Blish Milling Company's whistle sounds the weather forecast for the succeeding twenty-four hours as furnished by the government weather bureau. After the warning blast of the whistle which is sounded for twenty seconds, the signal blasts proper are sounded consisting of long blasts of six seconds duration and short blasts of two seconds duration in various combinations.

The long blasts indicate the general condition of the weather, whether fair or rainy, while the short blasts indicate temperature, higher or lower. Where no short blasts are blown—stationary temperature is indicated. The following list includes all the combinations which can be made under the code used:

— Fair weather, stationary temperature.
— Rain or snow, stationary temperature.
— Local rains, stationary temperature.
— Fair weather, lower temperature.
— Fair weather, higher temperature.
— Rain or snow, lower temperature.
— Rain or snow, higher temperature.
— Local rains, higher temperature.
— Cold wave.
With the whistle it is impossible to give everything contained in the weather forecast telegrams, but these will appear each evening on the third page of the REPUBLICAN and our readers can verify their interpretation of the morning whistle signal.

The Cosmopolitan is stories in its fiction for February. Stories of love, adventure and humor from the pens of famous authors make the "Midwinter Fiction Number" vitally interesting. "S. Cohn & Son" by Zangwill deals with the Anglicization of a Jew and the inevitable tragedy of his love for an English girl whose race prejudice triumphs over her nobler feelings. In "The Valley of the Dead" Thomas A. Janvier pictures the struggle of a dashing young engineer between love and duty. "Mr. MacGlowrie's Widow" is the title of a Western story in Bret Bartle's happiest vein and "The Fish" is one of E. W. Kemble's best humorous skits.

Notice to Taxpayers.

Notice is hereby given to the taxpayers of the City of Seymour that the tax duplicate for city taxes for the year 1901 is now in my hands, and that I am ready to receive taxes thereon. The rate of taxation is as follows:

The general fund, including library fund, \$1.25 on each \$100 valuation of taxable property and 50 cents on each taxable poll.

Special fund 15 cents on each \$100 valuation of taxable property.

SPECIAL NOTICE.

The first installment of taxes must be paid on or before the first Monday in May, otherwise the whole tax will be delinquent and subject to penalties.

Particular attention is called to the fact that the spring payment having been extended to May 1st, gives the treasurer less time to hold the duplicate, and it will be to the interest of the tax-payers to be as prompt as possible in paying the same.

Found Guilty!

You recall the story of the prisoner who, on being asked if he was guilty, replied, "I guess I am Judge, but I would like to be tried all the same."

Now you are guilty of not knowing our "High Grade" coffee. We do not suggest that you be tried on this charge, but that you try the coffee instead.

Like the man who made it an invariable rule of his life to take a bath once a year whether he needed it or not, it is a good plan to know something about

whether you drink it or not.

As a matter of fact, you never can tell when you may drink it. Our own opinion is that you will drink it just as soon as you have tried a cup.

The next time you get out of patience with your old coffee, get clean out,—and clear it out! Buy another brand.

What brand that will be depends on how much you know of Chase & Sanborn's High Grade Coffee.

There are a dozen ways to miss this knowledge. There is only one best way to secure it. Buy a pound!

SUNNY SOUTH

Fifty Cents a Year—Less Than a Penny a Number.

THE SOUTH'S LITERARY WEEKLY

Published at Atlanta, Ga.—Circulation Over 50,000.

The **SUNNY SOUTH** is the Great Literary Weekly of the South. It is devoted to Literature, Romance, Fact and Fiction, and gives the best of all that is current in its field. Among its contributors the most noted southern writers appear—Joel Chandler Harris, Harry Stillwell Edwards and others of growing fame. Serial stories from Anthony Hope, Maurice Thompson, Sidney R. Crockett, Mrs. George Corbett and Arthur W. Marchmont have appeared, and others are in waiting for the pen of authors of national note. A short story contest brought out nearly five hundred splendid short stories, all worthy a place in **THE SUNNY SOUTH'S** readable columns. Other contests are contemplated that will successfully exploit the ripening field of talent that only needs such fostering to illustrate the wealth that is shy to assert itself.

The **SUNNY SOUTH** teems with the life of the great south. The genial sunshine warms everything into activity, and the season is never cold enough to check the hand of industry. The paper comes fragrant with the breath of the magnolia and pine, and gives out the very air of the orange, palm and bay. The beauty and pathos, the romance and mystery of the land where the corn stores up the golden sunshine and the cotton whitens in the moonlight, will be given in the well-filled columns of this fascinating weekly.

The subscription price is **Only Fifty Cents a Year**, alike to all persons, agents, newspapers, postmasters and every one else. Clubs of five, accompanied by the full \$2.50, entitle the club raiser to the paper one year gratis.

Send on a **Postal Card** the names of six of your neighbors who would appreciate the opportunity to read a copy of **The Sunny South**, and one sample will be mailed free. You can get your club of five out of these very people.

The **SUNNY SOUTH** enters over 50,000 American homes now; and during 1902 is sure to be welcomed in fully as many more homes, as the great weekly feast of good things, the Southern Literary Weekly, whose columns for 1902 will be the most readable of all the papers that come to you.

A FISHING FICTION.

THE "MAGIC EYE" OF THE SAULT STE. MARIE INDIANS.

An Old Guide's Explanation of the Indian Whitefish Hunter's Method of Getting His Glittering Catch From Under the Rapids.

"The first time I fished in the Sault Ste. Marie rapids," said a well known Lake Kenka sportsman, "I landed in an hour twenty-one brook trout that weighed forty-five pounds; so I was ready and willing to believe anything I heard or read about the possibilities of those waters or the astounding things that men who fished in them were able to do.

"Consequently I believed what they told me about the marvelous feats the Indian fishermen of the Sault Ste. Marie could perform in the way of netting whitefish. Few who have toured the great lakes have not heard of those same feats, witnessed then, and, of course, could do nothing but go away believing that they were all they seemed to be.

"Particularly will they marvel, as I did, at the Indian whitefish fisherman's magic eye with which he seems to look down through ten feet or more of foaming, rushing water and see whitefish that to the white man's eye would be invisible five inches beneath the surface. It would have been strange if I had not marveled at it, having witnessed more than once manifestations of its alleged power. That was before I talked with old Guide Garron.

"The astounding feats of the Indian whitefish netters of the Sault Ste. Marie that the guidebooks and the hotel keepers and steamboatmen insist on telling tourists about are performed by two Indians in a canoe. One occupies the stern and manipulates the paddle to keep the canoe's head pointed up stream. The Indian in the bow, standing upright, uses a pole to aid in propelling the canoe or in keeping it steady.

"Lying ready to his hand is a dip net four feet in diameter, fastened to the end of a pole perhaps fifteen feet long. The fishing is done at the foot of the rapids, where the water boils and tumbles furiously. With his pole the Indian in the bow keeps the boat moving about in the rapids and gazes constantly into the water, which is often ten feet or more deep.

"Suddenly the Indian in the bow will seize the net handle with one hand, never ceasing to manipulate the canoe with his pole in the other nor for an instant removing his staring gaze from the water. The net is not more than in his hand before he has plunged it perhaps ten feet distant from the boat, thrusting it at the same instant to the bottom. Then he gives it a peculiar twist, draws it up and, surrendering the care of the canoe for the moment to the Indian with the paddle, he draws the net up, never without from three to half a dozen glittering whitefish in it, frequently weighing five pounds each.

"The wondering spectator, seeing nothing but the boiling water, the sudden start of the Indian and his quick and dexterous plunging and drawing up of the net with its invariable load of whitefish, can do nothing but acknowledge to himself the necromancy of the Indian's piscatorial art. I know that I did, and for two seasons gave myself away to the fascination of that mysterious fishing. Then one day I marveled at it greatly to Guide Garron the shrewd and cunning old Frenchman who knows every rock and eddy and whirlpool of the rapids and all the wiles and tricks that any other guide knows and a whole lot that no other one does know, and Garron's little black eyes twinkled.

"Ah!" he chuckled, "Zat mageek bye. He von gr-r-rand hombog!"

"Then he explained in his voluble and picturesque patois the apparent mystery of the Indian whitefish fisherman's magic eye. Whitefish are natural denizens of the still, silent waters of the great lakes. To get from Lake Huron to Lake Superior these fish must fight their way up the fierce and stubborn Sault Ste. Marie rapids. In doing this they travel by easy stages. They can brave the rapids but a short distance at a time, when, almost exhausted, they drop into the shelter of the friendly rocks that pile the bottom of the rapids.

"Huddled sometimes by the score behind these rocks, getting wind, as it were, to overcome another stage of their journey, the whitefish, if the water is not too deep, can be lifted out by the hand of the fisherman, they are so nearly exhausted. The Indians as well as the white fishermen know this and, knowing well the location of these sheltering rocks, have only to thrust their nets down behind them and draw them up filled with fish.

"The cunning of the Indian led him long ago to give visitors the impression that he could penetrate the troubled depths of the rapids with his gaze and discover the whitefish on the bottom. The wonder of it spread, and it has been one of the fondest and best paying fictions of 'Susan Mary,' as the natives give you the pronunciation of the Sault Ste. Marie."—New York Times.

An Anecdote of a Genius.

The following anecdote of Leigh Hunt was once related by "Orion" Horne. Horne on a bitterly cold day in winter went to see Hunt, and found him in a large room with a wide, old fashioned fireplace. He had dragged his piano on to the hearth, close to a large fire, leaving only room for himself and his chair, and was playing with the greatest enjoyment.

"My dear fellow," cried Horne, "are you aware that you are ruining your piano forever and ever in that heat?"

"I know—I know," murmured Hunt, "but it is delicious."

The Last Few Years Has Shown a Remarkable Increase of Sleeplessness. How to Overcome it.

Sleeplessness is one of the most prolific sources producing weak—nervous and restless condition. There is no sense in using opiates, they only undermine the constitution. Nothing has ever been known to perfectly control this condition until the advent of Dr. A. W. Chase's Nerve Pills. Their action is so gentle and soothing, sweet refreshing sleep follows then nature has a chance to build up.

Mrs. F. K. Mackey, No. 614 Poplar street south, Seymour, Ind., says:—I was a sufferer from severe, nervousness, sleeplessness and dizziness. I was advised to try Dr. A. W. Chase's Nerve Pills. I got a box at A. J. Pellens Drug store and now after using the medicine I am pleased to say my nervous system has been toned up—I sleep well and am relieved of those dizzy spells. I consider these pills a splendid nerve medicine."

The S. I. Going to Sullivan.

The Southern Indiana has purchased property in Sullivan, and before the season is over will be running trains into the city. Next year another branch will be built to the mines in that locality, and the Southern will then have a sort of a belt road, that takes in all the important mines. The Sullivan branch will start at Elkhart. The details of the building of the road to Sullivan have not been made public, and little is known of the proposed line, but the right of way has all been obtained, and active work will begin in a short time. The company will spend a great deal of money in Sullivan for buildings and terminals.

A Good Recommendation.

"I have noticed," that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to the people who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, you are certain to be delighted with the prompt relief which they afford For sale by C. W. Milhous.

Charles E. Greger, of Brownstown, who clerks for John B. Burrell, is among those granted certificates by the state board of pharmacy this week.

Remarkable Cure of Croup.

A LITTLE BOY'S LIFE SAVED.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that I had not got the bottle of cough medicine, my boy would not be on earth today.—JOEL DEMONT, Inwood, Iowa. For sale by C. W. Milhous.

Charles Newby and wife, of Indianapolis who came here to attend the funeral of her brother, Joe Duggins, returned home last night.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Pendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly ward off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by C. W. Milhous.

Kodol

Digests what you Eat

Dyspepsia Cure

A healthy stomach, capable of digesting a good, square meal, is a great blessing. It keeps the body strong by insuring plenty of nourishment. In fact, it means perfect health. But something must be done when the stomach is so tired that it can't digest what you eat, for undigested food poisons the blood.

We can recommend a preparation that completely digests all classes of foods—that is **KODOL DYSPEPSIA CURE**. It gives the stomach perfect rest and allows you to eat and enjoy the variety of food that is necessary for maintaining health. It never fails to cure indigestion, after everything else has failed. It is pleasant to take and can be used in all conditions.

"For many years I suffered from chronic indigestion, and it seemed as though nothing was going to do me any good. On the advice of a friend I commenced using Kodol Dyspepsia Cure. It gave me immediate relief and I continued its use, until now I feel that I am cured."—Henry F. Cramer, Wendelville, N. Y.

It can't help but do you good
